THE ULTIMATE CRUISE

Steps away from the marina

The image shows a modern building with two prominent balconies. The balconies have glass railings and are cantilevered from the building's facade. The top balcony has a dark wicker chair, and the bottom balcony has two lounge chairs. The building is set against a sky with a gradient from blue at the top to orange and yellow near the horizon, suggesting a sunset or sunrise. The overall aesthetic is clean and architectural.

MAGNIFICENT TERRACES WITH VIEWS OVER *the* ICONIC CITY SKYLINE

Unique balcony design that provides outdoors spaces for you to enjoy, while also ensuring a sustainable design by providing shade which greatly reduces the amount of energy required to cool the living spaces of the building.

The Galilee

Designed for the Pioneers of tomorrow

The Galilee features symbolic design cues, where individual balconies are interwoven together to form a unified community. This interesting pattern creates an illusion which makes the building's static environment appear as a dynamic design. The building's unique balcony design provides outdoors spaces for residents to enjoy, while also ensuring a sustainable design by providing shade which greatly reduces the amount of energy required to cool the living spaces of the building.

The Galilee will include 44 units of apartments, 1,2,3, and 4-bedroom, and very high-end furnishing; with its majestic facade, gorgeous architecture, attractive landscape, and fantastic vistas, this is a genuinely remarkable location to call home.

The building showcases **Gloch Stylistic's** signature contemporary design style while keeping traditional elements and architecture in consideration. The unique balcony design of the building offers residents an outdoor space to enjoy without compromising privacy. The building's prime location ensures a great investment for its future owners.
